Academic Department/Program: Bachelor of Bachelor of Science in Accounting

| Student Learning Outcomes | Assessment Methodology | Target | Summary of Major Findings | Actions <br> Taken to <br> Improve <br> Student <br> Learning | Timeframe |
| :---: | :---: | :---: | :---: | :---: | :---: |
| SLO 1: Explain the interrelationships of the functional business areas within organizations | Method 1: Globus Project Score | $\begin{gathered} 90 \% \text { of } \\ \text { students score } \\ \geq 70 \% \end{gathered}$ | MAN4033: GLO BUS Project Score <br> Percent of students scoring $>70 \%$ on GLO BUS Project <br> GLO-BUS Project score is used to find the percent of students in each cohort who have the ability to explain the interrelationships of the functional business areas within organizations. The goal is to have $90 \%$ of students each year obtain a score of $70 \%$ or higher on the GLO-BUS project. <br> At times, graduate assistants serve as teaching assistants in the classroom and are present as a resource when students work on the project during class-time. In the 2022-23 academic year, a graduate assistant was available in both the fall and spring semesters. <br> In 2021-22 the weight of the individual components within the larger GLO BUS Project scores were adjusted to emphasize the individual components of the larger assignment; these include individual quiz scores and peer evaluations | Monitor for trends | On-going |

|  |  |  | within the group project. These same increased weights for the project were used in 2022-23 and the Globus Project score continues to be based on 50\% of the company performance and $40 \%$ individual testing and peer evaluation of individual performance. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Method 2: MFT Post-test Composite Score | Exceed the national average | \% of Students over National Average <br> The MFT average score for MVNU 2022-23 seniors was 153.00 which is above the most recent national average of 150.3. The department desires a ranking above the 50th percentile, indicating an average score that exceeds the national average. Thus, this desire was met. <br> Historically, there has been a small number of points awarded to students for completing the MFT and the number of points were not a large part of the overall grade ( $\sim 3 \%$ ), which did not incentivize the students to perform well. In 2020-21, the total number of available points associated with the MFT within the Strategic Planning course was increased (now worth 9\% of the overall grade) and a points scale was created for earning various MFT percentile rankings in five different strata. In addition, the difference between the top and bottom percentile results in a $5 \%$ adjustment to the overall grade. <br> The increased emphasis on the MFT score within the Strategic Planning course continues to incentivize students to invest their best effort in the MFT exam. The department was pleased to note that more than half of MVNU students scored higher than the national average, though there was a decline in the percentage from 2021-22. | It appears that the right emphasis is now placed on this exam w/in the Strategic Planning course, but the department will watch for continued trends to confirm. | On-going |

| Method 3: <br> Infographic project score | $\begin{gathered} 90 \% \text { of } \\ \text { students score } \\ \geq 70 \% \end{gathered}$ | IBS3003 International Business <br> Infographic Project Scores <br> Percent of students scoring >=70\% on project <br> Target: $90 \%$ of students >=70\% <br> The Infographic Project requires students in groups of two to recognize the interrelationships of the functional business areas within organizations, especially as they become more complex when understood in the context of various cultures and economics systems. The assessment measure was first employed in 2020-21, and results continue to show that students are progressing well at this learning objective. <br> In 2022-23, $97 \%$ of the students scored at least a $70 \%$ on the assignment compared to $95 \%$ in 2020-21 and 100\% in 2021-22. | The department will watch for trends moving forward. | On-going |
| :---: | :---: | :---: | :---: | :---: |

| SLO X: Model effective oral and written communication skills |  |  | Previously the department had a SLO that business program graduates would have an ability to model effective oral and written communication. However, in spring 2022 the department faculty updated the SLOs and removed this learning objective, noting that it made more sense as a university-wide liberal arts objective than it did as a business department objective. Thus, moving forward this SLO will be removed from assessment reports. | n/a | n/a |
| :---: | :---: | :---: | :---: | :---: | :---: |
| SLO 4: <br> Participate in professional development, service and/or multi-cultural activities | Method 1: Survey of graduating seniors | $70 \%$ of students will report participation in one of those activities during their undergraduate experience | Percentage of students participating in service, mission, and/or multi-cultural activites <br> Target: 70\% of students will show participation in one of these activities <br> Students in the Strategic Planning course complete an online survey that records activities that they participated in during their time as a business student at MVNU. Business students continue to be highly engaged in service, mission, and/or multi-cultural activities outside of required course assignments. | Monitor for trends moving forward and continue to include the survey as an assignment in the Strategic Planning course. |  |

|  | Method 2: Business Communication Resume | $70 \%$ of students will show they have participated in one of these activities during their undergraduate experience |  <br> Students are reporting that they are participating in multi-cultural, professional development and/or service activities while at MVNU. Professional development includes such activities as attending conferences, completing internships, and engaging in networking events. Service projects include leading small groups, mission trips, volunteering in local community organizations, Enactus, and other similar activities. Multi-cultural events include mission trips and other events geared towards interaction with other cultures. <br> For 2022-23, Business Communication resumes were evaluated again to obtain information on participation in these types of activities. It was found that most students self-report participating in at least one of these types of events. | Moving forward, will continue to examine resumes in Business Communication and continued emphasis will be given in the course on the importance of having these activities listed on individual resumes. |  |

| SLO 5: Demonstrate proficiency in financial | Method 1: <br> ACC3073 <br> Intermediate ACC II Average of the course exam scores | $90 \%$ of Students will score $\geq 70 \%$ | ACC3073 - Students Exceeding a 70\% average of exam scores <br> In the fourth year of using this assessment measure, there is continued success with students exceeding the $70 \%$ threshold for average exam scores. | Monitor for trends | On going |
| :---: | :---: | :---: | :---: | :---: | :---: |
| management decision making | Method 2: <br> ACC3043 Cost Accounting Average of the course exam scores | $90 \%$ of Students will score $\geq 70 \%$ |  <br> Cost Accounting is an alternate-year course. Thus, trends are slow to emerge in this measurement. Accounting faculty will continue to monitor. | Monitor for trends | On going |

|  |  | This course was not taught in 2022-23, and it will be assessed again after the 2023-24 academic year. |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Method 3: <br> ACC4083 <br> Advanced <br> Accounting I <br> Average of the course exam scores | 90\% of Students will score $\geq 70 \%$ |  <br> There was notable improvement in the average exam scores in the fall 2022 Advanced Accounting I course. | Monitor for trends |  |
| Method 4: <br> Percent of students who score "satisfactory" or better on all evaluation criterion on internship evaluation completed by employer. | Target: 90\% Percent of students will score "satisfactory" or better on all evaluation criterion. | Percent of Students who Score "Satisfactory" or Better on All Evaluation Criterion <br> Target: 90\% Percent of students will score "satisfactory" or <br> Accounting students continue to perform well in their internships. Several of these internships have turned into offers for full-time employment. |  |  |

|  | Method 1: <br> ACC4103 Adv Acc II Average of the course exam scores | 90\% of Students will score $\geq 70 \%$ | ACC4103 - Students Exceeding a 70\% average of exam scores <br> Target: 90\% of students will have an average of exam scores >70\% <br> There was notable improvement in the average exam scores in the spring 2022 Advanced Accounting II course. | Monitor for trends. |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| specific <br> knowledge and apply skills essential for the certified public accountant | Method 2: <br> ACC4073 Adv Tax Average of the course exam scores | 90\% of Students will score $\geq 70 \%$ | ACC4073 - Students Exceeding a 70\% <br> average of exam scores <br> Target: $90 \%$ of students will have an average of exam scores <br> 2022-23 was the second year the dept collected assessment data in Advanced Tax to measure students' ability to articulate discipline specific knowledge and apply skills essential for the CPA profession. While most students continued to perform well in this area, $94 \%$ of 2022-23 students had average exam scores over $70 \%$ while $100 \%$ of students exceeded an average of $70 \%$ in 2020-21. | Future trends will be looked at so that this assessment measure can be evaluated for effectiveness and reliability. |  |

|  |  | Of note, in 2022-23, this course consisted of both Accounting and Finance majors for the first time, making it a much larger class than in years prior. However, only Accounting majors (first or second major) were included in the calculation of the assessment measure. |
